\$50,000 or more	276	58222	85.8	81.0	90.6

Data Source: Behavioral Risk Factor Surveillance System

Data is based on the number of adults with diabetes who reported that a health professional had checked their feet for sores and irritations at least once in the past 12 months.

% = Weighted percentage of respondents

LCL= Lower 95% confidence level of the weighted percentage

UCL= Upper 95% confidence level of the weighted percentage

All percentages are weighted to be more representative of the population of Maine and to adjust for non-response.
